PROFESSIONAL EXPERIENCE

Sea Wagy House	Milpitas, CA
<i>UI/UX, Graphic Design</i>	July 2026 - August 2026
- Utilized Figma and Wix to design, wireframe, prototype, and ship the restaurant's website, driving 18.7K sessions and 14.6K unique visitors within its first month live - Built a typography and color system establishing a distinct, upscale visual brand identity across the site - Designed a 50+ drink menu showcasing the restaurant's curated alcoholic beverage selection	
Seapot	San Mateo, CA
<i>Social Media Marketing, Graphic Design</i>	August 2025 - May 2026
- Directed short-form video and visual content with a consistent brand identity, growing Instagram following by 8K+, reaching 231K accounts, and generating 557K+ views - Used Adobe Photoshop and CapCut to produce branded graphics, reels, and promotional content - Redesigned restaurant menus into a clear, step-by-step ordering flow: improving visual hierarchy and information architecture to reduce ordering time by 37% and improving customer experience	

EXTRACURRICULAR EXPERIENCE

Generate	Boston, MA
<i>Software Designer</i>	September 2026 - Present
- Designing the website for a creator marketplace startup that won the YC × Supabase AI Hackathon- including mockups, wireframes, and interactive prototypes - Building a component library, establishing a typographic system, and designing the logo to ensure consistent brand identity across the product	
Entrepreneurs Club	Boston, MA
<i>Associate Director of Graphic Design</i>	August 2026 - Present
- Design Instagram posts, stories, event materials, and posters that build engagement and drive turnout for the club's weekly bootcamp, drawing 80+ attendees to its first session - Designed the Fall 2026 Sponsorship Packet, a key outreach asset distributed to prospective business partners	
Innovators for Global Health	Boston, MA
<i>Team Member</i>	August 2026 - Present
- Designing detachable gynecological stirrups intended to address flaws in existing equipment and improve maternal care access in Akyem Dwenase, a rural village in Eastern Ghana - Collaborating with a team to research, ideate, and design a gynecological stirrup that cause lower rates of physical complications and severe maternal trauma
